(2)

- (3) The report tends to indicate that the new quarters in the converted clothing depot I in Bernau were being occupied since mid-September 1952. Only billeting equipment and individual weapons of the 11th Gds AT Arty Brig of the Fourth Gds Mecz Army appears to have arrived. The shipment that arrived in Bernau on 18 September is believed to be identical with [redacted] passed through Oranienburg the day before. The train came from Doeberitz. [redacted] The vehicles referred to [redacted] as tanks were possibly tractors. The coinciding departure of Bernau units from the Templin troop training grounds requires confirmation. It is assumed that, also from there, only advance parties of the brigade were on their way to Bernau.
